

Welcome to the ZCB Help Center

Important Update

An updated version of Zmanda Cloud Backup 4.5 is available for download. This update fixes several bugs, and also allows Zmanda Cloud Backup to work with Java 7, Update 21 and newer.

Please click on Help > Check for Updates or log into your account at <http://network.zmanda.com> to download the new installation files.

A history of this issue can be found here: [ERROR: ...executable name has embedded quote, split the arguments...](#)
